

WHY WINDOW NATION?

OVER 475,000 WINDOWS INSTALLED IN MORE THAN 80,000 HOMES

ATTENTION TO DETAIL

- 50 Point Factory Inspection
- 20 Point Installation Review
- 97% Customer Satisfaction On Clean Up And Safety
- Custom Windows Made To 3mm For Precision, Accuracy, And A Tight Seal
- Over 80,000 Windows Installed Last Year With 99.5% Requiring No Follow Up Service

QUALITY

Window Nation Uses America's Only Integrated System Of Window Installation Materials, Insulation, Sealant, And Caulking

- OSI Quad Foam
- OSI Quad Max Exterior Sealant
- Ultra-Premium High Performance Exterior Trim Coil
- Concrobium Mold Spray Treatment

EXPERIENCE

- Installation Crew Leaders Average More Than 20,000 Windows & 16 Years Experience
- Service Technicians With An Average Of 15 Years' Experience
- Over 475,000 Windows Installed In Over 80,000 Homes
- 5th Largest Window Retailer In The Country, Ranked By Remodeling Magazine

PRODUCT SELECTION

- Over 1,500 Custom Window & Door Style Combinations
- Name Brand Windows Available In Vinyl, Wood, And Fiberglass
- ENERGY STAR® Rated Products
- Windows Engineered For The Specific Climate We Live In

TRUST

- A+ BBB Rating
- Angie's List Super Service Award Winner
- Limited Lifetime Warranty
- Exclusive 30-Day Price Protection Guarantee
- Licensed, Bonded, And Insured

Providing Structural Integrity and Pleasing Aesthetics More Affordably.

- 1. World-Class Robotic Assembly.**
Consistent fabrication quality from window to window. Fusion-welded sashes and frame are built squarely. Narrow manufacturing tolerances produce a tight window that best prevents air and water infiltration.
- 2. Dura-Sill™ Engineered Sloped Sill.**
Tight mortise-cut, double-wall sill dam extends inside the jamb, eliminating the need to caulk an open seam.
- 3. Soft-Seal™ Straddle Gasket.**
Closed-cell neoprene, cushion-gasket under the sash straddles the exclusive sill rail under compression when locked. One of several tight barriers and diversions built into Dura-Sill™.
- 4. Dual-Fin Wool-Pile Weatherstripping.**
Protects around the perimeter of all sashes to fight air infiltration.
- 5. Full Metal Reinforcement.**
Lock screws are fastened into metal for secure hold.
- 6. Integral Ergonomic Lift Rails.**
Buyer beware of any window with snap-in lift rails that frequently snap out. Features comfortable ergonomic design.
- 7. Interlock System.**
Interlock at sash meeting rails creates a super-tight seal against air infiltration, providing security, comfort and well being.
- 8. Tilt-in Sash System.**
Dual operating tilt-in sashes make cleaning safe and easy from inside the home.
- 9. Dual Ventilator Locks.**
When deployed will limit sash travel, allowing for a secure way to keep windows open for ventilation.
- 10. Certa-Force™ Balance System.**
AAMA Class 2 device provides smooth and easy operation. 1/2" stainless steel never needs lubrication or adjustment. Compare to old-fashioned "block and tackle" balance system that uses string, a wire spring, and plastic pulleys in a large metal housing that creates a thermal short circuit inside the window jambs.
- 11. Balance Covers give the window a more attractive and polished appearance.**

PPG Stainless Steel Intercept Spacer System

- Corrosion Resistant - Will never rust
- Temperature Resistant - Maintains a strong, secure seal through extreme temperature changes
- Strength & Durability - Two times stronger than tin spacers
- Warm-Edge Technology - More energy efficient than tin spacers
- Health Smart - Good for the environment
- Grid Alignment - Perfect, machine-generated alignment
- Aesthetic Appeal - Beautiful shine, the best-looking spacer in the industry

A Lifetime of Protection

All Window Nation Products are manufactured by the recognized leader in product innovation with uncompromising quality control. From the day your windows are installed to the day you sell your home, our comprehensive non-prorated lifetime warranty is your assurance that your investment is protected. Additionally, your warranty is completely transferable to the next homeowner. Contact a Window Nation consultant for more information and a copy of the warranty.

ULTRA VIEW

AAMA Gold Label

Ultra View Windows proudly carry the AAMA Gold Label, which means that they meet stringent performance standards for air, water and structural load.

AAMA Gold Label Certification	
Air:	0.07 cfm at 25 mph*
Water:	R40 48 mph**
Structural:	DP 35 143 mph

Vent Stop, when deployed, will limit sash travel to allow for ventilation

Tight mortise-cut, double-wall sill dam extends inside the jamb, eliminating the need to caulk an open seam.

Cam-Action Lock features durable zinc-cast design that pulls sashes and mechanical interlock tightly together to prevent air infiltration.

*4.3 times better than industry minimum. .30cfm **8" rain per hour (45% over industry minimum 33mph) (Test results vary by style and size of window. Size tested is 44" x 63" with SS glass.)

Windows Made in the USA

Ultra View Windows are manufactured in the USA and are designed and engineered specifically for our challenging midwest and east-coast climates. This weather is unlike any other in the country due to its hot humid summers and brutally cold and snowy winters. Why purchase a window made for the entire country's average weather when you can invest in one designed for your unique climate? Other benefits of products made in the USA include:

- No shipping costs
- Quicker turnaround
- Supports economy
- Windows specifically designed for our challenging climate
- Quicker service for parts

Other Windows Ultra View Windows

The narrow-line frame of Ultra View provides more viewing area.

Air Infiltration

Poorly designed windows don't have built-in airlocks, weather stripping, and barriers necessary to keep air from forcing its way in, and leaky windows cause drafty homes. Ultra View windows greatly minimize air leaks with numerous air barriers designed into our advanced sill design.

Ultra View is also available in sliding windows, casement & awning windows, picture windows and sliding doors.

Sliders come in 2- and 3-lite models. 3-Lite Sliders have a center fixed panel and are available in configurations of 1/3-1/3-1/3 and 1/4-1/2-1/4 .

Casements have a unique hinge design that allows for easy cleaning from the inside of your home.

Kingsroyal™ Patio Doors are built strong, including a heavy-duty metal reinforcement and an extruded aluminum screen door frame, while still remaining aesthetically appealing.

The Ultra View window comes standard with one of our double-pane, high-performance Low-E glass systems with the Stainless Steel Intercept spacer system, which will help to dramatically improve the efficiency of your new windows.

EXTREME LOW-E Plus

This window is ENERGY STAR qualified in North, North-Central, & South Central zones. Upgrade of SOLAR LOW-E qualifies window in South zone and provides: U-factor: 0.28, SHGC: 0.22, Visible Transmittance: 0.51. For the Northern climate zone, Ultra View windows come with Low-E NEZ glass, which certifies them for the ENERGY STAR label and provides values of: U-Factor: 0.29, SHGC: 0.39, VT: 0.55.

Inside

Unmatched Installation Experience

Great windows are only great if they're installed properly. It's critical that all the components that go into your new windows work together – insulation, caulking, sealants, and the window itself.

It Starts With Quality Materials

① QUAD Low-Expansion Foam

- Single-component, minimal expansion and low-pressure polyurethane foam specifically designed for replacement window applications
- Ideal foam for sealing gaps, cracks, holes or voids around windows
- Closed-cell structure of this material provides an R-factor of 5 per inch of cured foam, making it an efficient method for stopping air and moisture infiltration

② OSI® QUAD MAX® Window, Door And Siding Sealant

- Unique multi-polymer formula specially engineered for premium replacement window installations
- Permanently flexible, will not crack or split even in extreme temperatures
- Water-resistant, all-weather applications, sticks to wet surfaces, no water washout
- Excellent UV resistance; will not crack or yellow

③ Quality Edge No-Mar Coil Systems

- Outperform PVC and Poly Coil finishes in the ASTM physical tests performance
- Features a finish with 8 mils of paint; that's twice the amount of paint used by most trim coil manufacturers
- Scratch resistant, stain inhibitors, better UV protection and harsh-climate coating
- Color selection - available in 30 unique color choices

④ Concrobium Mold Control Spray

- Innovative, market-leading product that effectively eliminates existing mold, prevents mold re-growth and eliminates musty odors with no harmful chemicals
- Effectively eliminates and prevents mold with no bleach, ammonia or VOCs
- Works as it dries by crushing the mold spores at the roots, leaving behind an invisible antimicrobial barrier to prevent future mold growth
